

Fall Monitors & Exit Alarms are designed to alert nurses when an at-risk individual needs assistance – so your nursing staff can get to them before they fall!

- Helps deter resident tampering with:
 - Dual button reset
 - Volume and delay switches inside battery compartment
 - No ON/OFF switch
- Self-timing pad use with monitor enables visual and audible indicators for pad expiration.
- Built-in Sentry pad cord strain relief
- Low battery indicator
- Uses single 9V battery
- Selectable 4 tone alarm
- Nurse call with remote reset alarm option

SENTRY FALL MONITOR

AMFP-91621 **\$33.95**

- Easy-to-use, economy pull-string monitor
- Built-in Sentry pad cord strain relief
- Single person monitoring device that alarms when unsupervised resident movement occurs
- Monitor attaches to a bed or chair and the exclusive "Safety Klip" is attached to the resident
- Alarm sounds when magnetic seal is broken between the monitor and the magnet, indicating movement
- No ON/OFF switch

SAFETY SENTRY

AMFP-91230 **\$11.95**

- Alternative means to detecting a resident's departure from his/her bed
- Emits either a beep or a chime alarm when notifying staff of a resident's attempt to get out of bed
- Multiple installation methods
- Nurse call capability
- Powered by 9V batteries (not included) or AC adapter (optional)
- Low battery indicator light
- Mounting hardware included

INFRARED SENTRY IRM-1
